

## Castle View B&B Fishing Experience

Breifne is Ireland's premier location for game and coarse fishing and has some of the cleanest and most lightly fished fresh waters in Europe. The vast variety of fishing makes Ireland the perfect destination for your angling holiday. We are dedicated to delivering the very best holidaying experiences. Our tours are designed to make the most of your time in our stunning country and to give you an authentic experience. We have surveyed and mapped out the best Lakes, rivers and coastal stretches for this tour. Part of this tour is inclusive of six lakes which surround Castle View bed and breakfast house. Our guides have been fishing these rivers in this area for many years and have extensive knowledge of all of the types of fish and hotspots of these lakes and rivers.

**Salmon runs are found on Lough Melvin and Lough Gill and in the Glencar Valley, while the Ballisodare River at Collooney is recognised for its prolific salmon catches. People fishing for trout can also enjoy wet fly on those lakes, while Lough Key, Lough Gill and Lough Erne are all particularly suitable for the dry fly fishing.**

**3 Days only €399 all B&B, food and permits included**

You will be staying at Castle View B&B. You will be surrounded by beautiful scenery and an abundance of wildlife and forest walks. It is a truly wonderful place to holiday. Lough Gill is to the front of the bed and breakfast where the fishing tour will begin. You will visit a lake a day on this tour and enjoy a few pints. They will provide you with the comprehensive range of guided fishing trips, permits, fishing tackle and anything else you need.

**The Irish climate is well suited to sport angling. It is temperate and kind to the angler with moderate summers, mild winters and adequate rainfall throughout the year. The warm waters of the North Atlantic Drift lap the south and west coasts, giving us a milder climate than our geographical location would indicate.**

**The Breifne coastline, over 153km long, has some of the cleanest and clearest water in Europe. It is also one of the most varied, with dramatic cliffs, white surf, rugged rocky coastline and large expanses of pale sands. The marine species range from the cold water Cod and Coalfish to the Mediterranean loving Bass and the Mid Atlantic Blue Shark. The result is a fabulous mixture of cold and warm water fish species, capable of exciting the specialist or casual angler on the annual family holiday. Tours around is extra.**
